

Support Natural Products Association West – Join or Renew Today!

The greatest benefit you receive from supporting NPA West, is to ensure that your trade association continues to exist to promote the natural products industry at the state government level and protect it against harmful legislation. When you join NPA West, you're supporting your industry by funding the association that represents your interests at the legislature; the association that takes political action on your behalf; the association that offers outstanding educational programs and a regional show. **No other trade association represents YOU in the states of CA, AZ, NV, HI and Guam.**

Join now to receive exclusive member rates on credit/debit card processing and commercial insurance. The money you save will add to your bottom line and pay for your association membership. Join now and receive 50% off of the American Botanical Council's Herbal Information Course and continue to receive the quarterly Health Matters newsletter. **All this for only \$50 per store per year – less than 14 cents per day! Is that too much to pay to protect the industry and your livelihood? (\$100 annual dues for suppliers).**

Don't delay! Return the enclosed Member Invoice today along with your dues and additional contribution in support of our efforts. You think you're already a member? Think again! Unless you signed up or renewed your membership at the NNFA-West Healthy Harvest Show in September, your dues are not current. Perhaps you joined the national association. That's great! National represents you in Washington, D.C. We are your watchdog in the West region. We are on our own. Regional dues are no longer collected by National. Your regional association cannot exist without your continuous financial support! **Please make it your business to join today!**

Thank you for your commitment.
